Abstract. This paper describes a template for INFOCOMP manuscripts. INFOCOMP receives papers in continuous flow and publish all accepted papers, however not necessarilly in the following issue.

Keywords: template, manuscripts, model, INFOCOMP.

1 Introduction

In edition INFOCOMP Journal 2008 shall be published only papers written in English. This change will allow that articles can be read by several researchers from different countries. Thus, documents submitted in Portuguese to be translated into good English.

The used principal source must be Times or Times New Roman, size 10 points.

The space between lines must be of 12 points. After each paragraph must be added an additional space of 3 points.

The used format of page is letter (to letter). The maximum amount of pages is ten. The edges to be used are:

- top: 3cm;

- botton, left and right: 2.5cm.

2 First Page

The first page must contain, in the following sequence:

- Title of the paper in source Helvetica or Arial, size 14 points in boldface. Space before 12 points and after 24 points. Single spacing between the lines;

- Name of the authors in source Times or Times New Roman, size 10 points in high box, centered, space after of 3 points;

- Address of the authors, in source Times or Times New Roman, size 10, centered, space after of 3 points;

- Abstract of the paper in source Times or Times New Roman, size 10, with jib of 1cm to the left and the right, space after of 3 points (the title "Abstract:" it must be in boldface);

- Keywords keys of the paper, with identical formatting to the Abstract.

3 Sections

Title of sections and subsection must be in source Arial or Helvetic, size 10 points, in boldface. It must have an additional space of 9 points before the paragraph of heading and 3 after. The sections and subsection must be numbered in the format:

1 Title of section 1
1.1 Title of Subsection 1.1
1.2 Title of Subsection 1.2

2 Title of section 2
2.1 Title of section 2.1

The first paragraph of each section does not have to be indent. The too much paragraphs must be indent in 0.5cm. The text of the paper must be in two separate columns for 0.5cm.

4 Figures and tables

Figures and tables can exceed the limits of the columns (but not them of the edges). The heading of one given figure (to see Figure 1) must come below of the same one and centered.

Figura 1: Figure of paper

Before each figure must have a space of 6 points. Between the figure and the legend, a space of 3 points. After the legend must have a space of 6 points. The legend must be in Times or Times New Roman, size 9 points.

The table heading must come above of the same ones (to see Table 1).

Tabela 1: Example of Table

U	$vitA$	$vitC$	$vitD$	$prot$	lip
d_1	1	3	4	2	3
d_2	1	3	3	3	2
d_3	1	3	4	3	1
d_4	3	5	2	5	2
d_5	4	5	2	5	1
d_6	3	5	2	3	4
d_7	4	4	1	3	2

5 Final version of the paper

In final version of the paper, the authors must send the follows files:

a) Final paper in pdf;

b) Code source **only in Latex**;

c) The figures should sent separately, only in the formats: jpg, png, eps and bmp.

d) All files must compressed within a file in formats: zip, tar, rar or another.

In the final version all the reviews must be considered to modify the text. Papers should be submitted to INFOCOMP using the JEMS system of Brazilian Computer Society in the page:
`https://submissoes.sbc.org.br/infocomp`

6 Bibliograph References

The bibliographical references will have to follow Norma NBR6023 of the ABNT-2000, listed in sequence alphabetical, with obligator numeration.

The citations in the text must be made to leave of the numeration of the bibliographical reference. The references must be inserted in file bibtex, such as in the *example.bib* appended.

Example, "In [**?**], is presented a taxonomy for medium access control protocols in wireless sensor networks ...".
